

**Description (Sample Specification Language)**

Pipe support materials shall be selected to provide an adequate anchoring point that addresses the lightweight flexible nature of Gastite. This can be accomplished through either the weight of the support or by adhering the support to the roof materials. The support materials must also be selected to be non-damaging to the roofing material. (Check with roof material manufacturer for approved adhering methods and non-damaging materials/installations.)

**Features:**

- Quick & Easy Installation
- Will Not Damage Roof
- Effectively Anchors Gastite CSST
- Effectively Supports Other Fuel Gas Piping
- 100% Recycled Material
- UV Resistant & Waterproof
- Installs With or Without Standard Roof Adhesives
- Handles Multiple Pipe Runs

**Technical Data:**

**General**

GRS-8S Support Material	Hard PVC & Foam Pad
GRS-9 Support Material	Rubber or Soft PVC
Support Dimensions	3-1/2"H, 6"W, 9"L
Hardware Material	Galvanized Carbon Steel

**Component Description**

P/N	Description
GRS-8S	Pipe Support, Hard PVC w/ Foam Pad
GRS-9	Pipe Support, Soft PVC
GRS-SK-9	Strut Kit for GRS-9
GRS-ASK-9	Adjustable Strut Kit for GRS-9

All Supports Pre-Drilled for Strut Attachment
